Town Council Holds A Quiet Session

Auditors' Report Shows Town is Within Estimates

Council met in regular session last Monday evening with Mayor Worts in the chair and councillors Daere, Sangster, Shaw and Lavelle present.

After disposing of the minutes of the previous meeting, council set a price of \$125 on the old Chawick building on First St.

A letter was read from the highway commissioner regarding survey through town for the national highway and stating that work on some would be commenced at once.

The auditors submitted their half-yearly report showing that books were in satisfactory condition and that town was keeping well within estimates to date. The report was received and filed.

A letter was read from Hon. G. D. Robinson, Minister of Labor, Ottawa, regarding the unemployment situation, and referring council to the provincial legislature for information regarding distribution of funds for this purpose. The secretary was instructed to take up the matter with the department at Edmonton.

A bill for \$18 for removing fire-brick from chimney recently blown down, was passed for payment.

Secretary Tarrant requested leave of absence for two weeks' holidays. The request was granted, same to take effect Aug 3rd.

Stirling Exposures in Beauharnois Report

Three Senators Are Condemned By Committee's Report

The report of the select committee of the House of Commons investigating activities of the Beauharnois Power Corporation, was tabled in the house yesterday. The select committee was made up of members representing all political parties in the house and its report was unanimous.

The report condemns three Liberal Senators, Messrs Haydon, MacDougall and Raymond, for the part they played in the deals in connection with Beauharnois transactions, and suggests that R. A. Henry, who was deputy minister of railways and canals in the King government when agreements were made, but who is now vice president of the Beauharnois corporation, is not a fit and proper person for such a position. The report also urges action by the Parliament of Canada to procure the development of the Beauharnois project in such a manner as will best serve the people of the Dominion.

The committee further finds that R. O. Sweeney, president of the company, donated \$700,000 for campaign funds which were handled largely by two of the senators mentioned.

This exposure, which was hit about by charges made by Robt Gardiner, M. P., is one of the most gigantic grafts and at least attempts at political corruption in the history of Canada and should be probed to the bottom, no matter who is affected by it.

Men Footballers Tie and Girl Glassers Win

Men Have 1-1 Score; Diamond Girls 6-1 Win

During the past week both male and female teams representing the brick & coal and the Dominion Glass, met and played two very interesting games.

Last Friday evening the men met in a league fixture and although both up to a stubborn contest, neither was able to make full points for a win. The game ended in a draw of one goal each. The Diamond D's scored their goal about half way through the first period, on a penalty which G. Davies took, landing a nice one just out of the goalie's reach. The second half was just nicely started when Kilner, on a nice pass, equalized. From this on play was very evenly divided until within a few minutes of the whistle when the Bricks appeared to have slightly the best of the argument, but they couldn't locate the net.

On Monday evening the two girls' teams played and while the Diamond D's won out by 3 goals to 1, they they had to work hard all the way.

Both teams showed a big improvement in their play since last game and they kept the crowd interested and enthralled all the way through.

The attendance was not as large as usual as very few knew the game was on.

AGREEMENT REACHED TO FINANCE 1931 CROP

Premier Brownlee on his return from conference in Winnipeg of the wheat prairie premiers and representatives of the wheat pools, confirmed the announcement that an agreement had been reached as to ways and means of financing the 1931 crop. The details of the plan will be laid before the Dominion government and the wheat pool directors before being made known to the public. It is understood that an opportunity of conferring with Prime Minister Bennett or his associates will be sought at once.

More Items of Local Interest

St. Weis, of Piapot, is spending his holidays here with his parents, returning from a visit to Edmonton.

Will the person who borrowed a three section split bamboo fishing rod from this office kindly return it as soon as convenient.

Mr and Mrs Reg Cann and family motored to Banff last week for a holiday and returned on Friday. They were accompanied by Mrs. F. Cann.

According to a change in the Criminal Code chicken stealing will be an expensive offence in the future. The fine will now be \$50 or two years imprisonment.

Bad forest fires have been raging around Fernie, B. C., all week. Although Fernie is in no immediate danger citizens have been forced to leave some of the smaller settlements in the vicinity.

The big bottle making machine at the glass plant here was put in operation last Monday and gave employment to about 25 additional hands. This machine is at present making quart beer bottles.

Mr. Male, of the Dominion Glass staff was operated on in Medicine Hat last Friday. He has been suffering from an infection in his foot, caused by a piece of broken glass. His Redcliff friends wish him a speedy recovery.

Mrs. Joe Testes met with a serious accident in Alderson on Saturday, when she was driving ran away, throwing her to the ground. The wagon passed over her body injuring her spine. She was taken to Medicine Hat hospital.

A. J. Wallace and family have returned home from a motor trip through Saskatchewan where they visited friends. A. J. says conditions from a farming standpoint are bad in the sister province. Despite the unfavorable conditions here, he says they are much better than further east and that he was glad to get back to Alberta.

This year the open season for ducks and geese in this part of the province will be from noon Sept. 15th to Nov. 14th inclusive.

J. Devitt is at present constructing troughs to be used at wells recently bored to supply water for stock in the dry area.

Evelyn Hicks was successful in passing all subjects in the recent grade XII exams, with the exception of algebra.

Dr. and Mrs. Ward are at present holidaying with friends in and around Edmonton. Dr. Patterson is attending to Dr. Ward's practice during his absence.

Miss Doreen Kearney, formerly of Redcliff, has been appointed matron of the Innisfail hospital. Her friends here wish her every success.

The regular monthly meeting of the Legion Auxiliary will be held at the home of Mrs. A. Patterson on Tuesday, Aug. 4th at 8 o'clock.

The Review will be glad at all times to get news items from our readers. Kindly let us have any items of interest you may know.

Mr. A. McKenzie, who has been manager of the Imperial bank here for several years, has been transferred to Piapot and leaves for that point as soon as his successor arrives here. Since coming to Redcliff, Mr. McKenzie's courteous manner, business ability and interest in town affairs have made him a host of warm friends. Mrs. and Mr. McKenzie will be greatly missed in Redcliff and their many friends wish them every success in their new home.

AN INVITATION TO PICNIC

An invitation is extended to all returned men and their families, also associate members and their families to meet at the club rooms on Wednesday, Aug. 5th, at one o'clock for the Auxiliary Picnic to be held at Central Park. Please bring cups and spoons also lunch basket.

Mrs. Davies, Secretary

Diamond D Girls Give Men Picnic

Arrange Program for Afternoon On The River Bank

A jolly crowd assembled on the river bank in the Box Springs district last Sunday afternoon when the Du Ronin Glass ladies' Football team entertained the men's team to a picnic.

Ten or twelve cars took the picnicists to the grounds where arrangements had been made for a real picnic program, which consisted of games of various kinds all of which were most heartily enjoyed by all present.

Nor was that very important item which is so essential to the success of a picnic—the eat—overlooked by the committee. Everything from soup to nuts was there in abundance and ample provision was made for soft drinks, ice cream and confectionery for the children all of whom had their appetites satisfied in these lines.

As the whole outing was a great success and the girls are being highly praised on all sides for the thoroughness of their plans.

INCREASE SHIPMENTS OF CATTLE TO BRITAIN

Approximately 10,000 head of cattle have been shipped from Canada to the United Kingdom so far this season. Cables received by Hon. Robt. Weir, Minister of Agriculture, gave the result of the latest shipment, which was landed at Glasgow.

One lot of cattle from Ontario will net back 1½¢ a pound to the shipper and another 7½¢. A car load of yearling steers from Ross ranch, Alberta brought an from \$65 to \$70 a head.

Successful negotiations of a trade treaty between Canada and South Africa is predicted in despatches received in London.

Churches

ST. MARY'S CHURCH
Celebration of Mass every Sunday of each month except the first Sunday, at 8:30 a. m.

ST. AMBROSE CHURCH
Rev. Malcolm Stewart, Vicar
Sunday, August 2nd, 1931.

11:00 a. m. Matins and Sermon
7:30 p. m. Evensong and Sermon

GORDON MEMORIAL NITE CHURCH

Pastor—Rev. R. E. Evans
Sunday, August 2nd, 1931.
10 a. m. Church School
11:15 a. m. Morning worship
Jack Collett, of Calgary, will occupy the pulpit.
3 p. m. Bowell.

No evening service.
"Indulgence—Freedom from anxiety or grief, is a virtue, a wholesome state of mind."

CHURCH OF BRETHREN
The Brethren church has been closed indefinitely.

The Brick-Win and Diamonds Have Draw

6-0 Score For Brick & Coal in Game With Callies

This season may be setting a record for the games in local football circles, but the game on Tuesday evening between the Brick & Coal and the Callies had nothing of the draw variety about it, as the Bricks had all their own way to the tune of 6 goals to 0.

From start to finish the Brick full line up played like clock work and gave one of the finest exhibitions of the season of what real team work will do. So decisive was their victory that nothing remains to be said about the game except that it places the Brick & Coal at the league with a half Nelson on the cup.

Kilner scored four goals and Patterson and Jorgeson one each.

To have seventy-five per cent. of the play during the whole game and finish up with only a draw, and the equalizing goal scored on a penalty when within a minute of full time, is not very satisfactory, but such was the experience of the Diamond D's in their game with the Legion last evening. At midfield the Diamonds put up one of their best games of the season, showing up well in spots at combination, but despite the score of time they worked well in on the opposing net they were not able to carry through their attack successfully. This was due to the superior work of the Legion defense as to the lack of finish of the Diamonds forward line. The apparent desire to hang on to the ball when close in, instead of passing, lost them several opportunities for an almost sure goal.

The Legion scored their first goal in the first half and Gen. Davis' slender form a penalty, equalized when within a minute of the final whistle. The game ended one all.

HOUSE APPROVES THE BONUS ON WHEAT

The bill providing for a five-cent bonus on wheat grown in Manitoba, Saskatchewan and Alberta, passed the House of Commons Monday. Under its provisions, the sum of five cents will be paid "for every bushel of wheat grown in the provinces of Alberta, Saskatchewan and Manitoba in the year 1931, and delivered to any licensed elevator in the western inspection division—commission merchant, truck buyer or grain dealer, as defined by the Canada Grain Act."

TO CONSERVE ALBERTA'S OIL & GAS RESOURCES

Definite steps are being taken by the Alberta government to conserve the oil and gas resources of the province, particularly in the Turner Valley field, and to put a stop to wastage that has been going on there for a long time.

Commencing Aug. 1st officers and employees of the Canadian National Railways receiving less than \$4,000 per annum will pay off one half day per week without pay, and payroll deductions will be made accordingly.

Great Railroad Has Fine Police Force

White gloves, part of their official dress, are especially appropriate to members of the Canadian Pacific Railway Police, not only for the smart touch thus added to their blue uniform, but because they are emblematic of the force itself: an organization of spotless reputation and unflinching courtesy. Not only is this picked body of men, uniformed and ununiformed, the safeguard of the property of the world's greatest transportation system and its thousands of patrons, but its members are friends and mentors to countless travellers all parts of the Dominion. Wherever the company has an interest, be it a great terminal, a wharf or a vast freight yard, "the man in blue" is to be found. Many of the constables and their officers are ex-servicemen and of their head is Brigadier-General R. de la Poudre, C.M.G., D.S.O., A.D.C., a decorated staff officer during the Great War. The force is a well-trained and efficient one, and also a well-equipped one. In the event of a railway robbery or a revolver shooting, its Ontario team has been awarded the Canadian police revolver championship for the whole Dominion this year.

The Canadian Pacific Railway Police is a well-known and respected force. It is a well-trained and efficient one, and also a well-equipped one. In the event of a railway robbery or a revolver shooting, its Ontario team has been awarded the Canadian police revolver championship for the whole Dominion this year.

The Hoover Proposals

May Be Regarded As Preliminary Step Toward Calling International Economic Conference

Dr. W. W. Swanson, noted economist and adviser to President Roosevelt at the Imperial Conference last year, when interviewed recently concerning the effects of President Hoover's proposals to declare a moratorium for one year on all war debt payments, and their reaction on western Canada, stated that they were of fundamental value as an aid to improving the demand for wheat and other farm products.

He was of the opinion, however, that Mr. Hoover's action could only be regarded as a preliminary step toward calling an international economic conference at London for the immediate dealing with the problems of currency, credits and the gold standard. He stated that it was significant that Mr. Hoover referred to the creation of a surplus reserve of gold in the United States under the present economic conditions.

Dr. Swanson believed that the Canadian government might use its influence with the Imperial authorities for the calling of such a conference in order that the present possible credit and debt burdens ranging upon Europe might be ameliorated, and thus relieve the pressure upon the people.

As a first step, he suggested that the opinions of Sir Montagu Norman, of the Bank of England, and of Mr. McLaughlin, of the Bank of International Settlements, should be obtained.

"The promise of the federal government to pay a five cent bonus on export wheat under some possible arrangements with the railways is good as far as it goes, but is wholly inadequate to meet the crisis in western agriculture," emphatically declared Dr. Swanson. "In any event, the bonus should be paid directly on all wheat delivered at country elevators, and the scheme should be divorced from any readjustment of railway rates."

"Even more important," he went on, "is the necessity to pay a bonus per acre on all wheat sown on the dried out areas and where there will be no harvest. Otherwise the farmer reaping a crop would be doubly benefited, first by being successful in harvesting a crop, and secondly by being paid a bonus."

Dr. Swanson urged that this direct measure of relief should be paid to the farmers through the various treasurers of the municipalities as this would both simplify methods of payment and assure the farmer at present struggling with debts, of getting the money at once.

The prime minister undoubtedly had a firm grasp of the situation, declared Dr. Swanson, and that other remedial measures to deal with the employment would be taken. He urged, however, that his proposals for direct relief to the farmers in the stricken districts should be incorporated in the federal programme, and felt certain that such an announcement by the government would, if made in the near future, go far in restoring confidence in the west.

Prefer Canadian Honey Combs

Comb honey foundations and comb honey sections are in considerable demand in the West of England and the South Midlands, writer Douglas E. Cole, Canadian Trade Commissioner at Bristol, Canadian supplies are considered of high quality and compare very favorably with those of other countries as well as those of local manufacture.

Might Prove a Boomerang

A Welland minister at Hamilton conference recommended that all Christian people forego the use of candy and give the money to the use of the unemployed. That idea may not appeal greatly to those now employed in producing the cream of confectionery, value of which is about \$38,000,000 a year in Canada.

"Will you come to follow me about?"

"It is nothing, I am only keeping the shade" - 11 420, Fraser.

W. N. W. 1897

Eliminate Fear From Cancer

Disease Can Usually Be Successfully Fought in the Early Stages

"Cancer can, in the large number of cases, be successfully treated providing it is caught in its early stages," declared Dr. D. D. Macdonald, Memorial Hospital, New York City, during an open session of the Canadian Medical Association Convention at Vancouver.

"I doubt very much, however, if the general will see the cause of cancer revealed," he added, "because the energy of those interested in it is that direction."

"If we could only dislodge the idea that cancer is the dire dreaded disease—if we could eliminate the fear from a person's head so that they would seek treatment, we could accomplish more."

The doctor said statistics showed that only 28 per cent of patients seeking advice do so in its early stage.

Periodical medical examination of all persons over the age of 30 was advocated by Dr. D. D. Macdonald, minister of Saskatchewan. The public should be relieved of the fear of cancer, and relieved from suffering. They should be made to know that even though both parents died from the disease, it does not necessarily follow that a child will also die from cancer. It must be remembered the cancer never begins in healthy tissue.

"I feel that the Dominion of Canada should become cancer conscious," he said.

Public health and medical organizations have been largely responsible for a big decrease in diseases in this country, said Dr. Munro. Disease is a problem of the municipal, provincial and federal governments, but it is a greater problem of the individual, he stated.

In the treatment of cancer, teamwork is essential," the doctor said. The problem of cancer is not a one-man job. It may require the family doctor, the specialist, the nurse and the intern. Centralization and teamwork among the clinics is the main factor."

Found Sign Was Genuine

Man Proved Montreal Restaurant Keeper Meant What He Advertised

As an experiment a Montreal restaurant advertised, "You can eat for 60 cents."

A man over six feet tall and weighing in the neighborhood of 250 pounds entered and settled himself for a comfortable meal. The manager and staff soon realized they were in the presence of an expert gourmand, and gathered discreetly around, keeping an accurate account.

The official count was given out as follows:

Four fish cocktails.
Eight wall cutlets and potatoes.
Eight foot loaves.
Five orders of French fried.
Five orders of ham and potatoes.
Two orders of roast beef.
Two orders of tomato salad.
Six ice creams.

Industrial Manitoba

The Industrial Development Board of Manitoba in its report covering the last five years, shows the following: 75 new industries; 239 plants erected; 140 new lines added; Capital invested in Manitoba abalone increased over \$63,000,000. The value of products increased \$62,007,000. There were 11,540 additional employees and \$15,451,000 more paid out in wages.

Trappers Have Good Success

Two trappers, J. Stark and G. Diabell, spent the winter and spring in the Barren Lands north-west of St. John's and Pond du Lac (where fur-bearing animals are supposed to be scarce) and emerged with 210 white fox skins.

A SCALE MODEL OF THE NEW GIANT CANADIAN NOW UNDER CONSTRUCTION

The new Cunard liner, which is now under construction at Clydebank, Scotland, when completed will look like the 18-foot model pictured above floating in a testing tank which artificially produced wind and waves for rigid experimental purposes. This giant liner when finished will be the largest ship afloat with a gross tonnage of 72,000 and a length of 1,018 feet. Details of her construction, which it is said will satisfy practically entirely new shipbuilding, are being jealously guarded.

BONZO By Studdy

Price Is Great Landlord

Takes Personal Interest In Tenants Who Are Happy and Contented

A fact often overlooked is that the Prince of Wales is one of the largest landlords in the country. "He has a property of some 100,000 acres of land, running along a stretch of country into hundreds of miles—100,000 acres of it."

The Duke of Cornwall includes every kind of agricultural land from a strip of homegrown from mission to collages, in Hertfordshire, Berkshire, Somerset, Dorset, Wiltshire, Devon, Cornwall, and the Shetland Islands. The Duke of Kent, London, S.E., is, of course, also included.

The Prince has visited practically every portion of his domain, and one has only to call upon a few of the tenants to realize the very real affection with which he is regarded.

It is always the same—"When his Royal Highness comes to see us," is the Prince's personal interest in his estate is shown in a score of ways. He cannot visit every house himself, but he sends some official of the estate down to at regular intervals. Reconciling is going on all the time by the works department and independent builders.

The tin-mining industry of Cornwall is encouraged to greater development, such as the sinking of new shafts. Every new cottage or flat must have its bathroom, and if the tenants can find anything to complain about they seldom complain in vain.

A Belated Reward

Hamilton Physician To Receive Medal Won In 1883

Sixty-eight years ago, Dr. William Philip of Hamilton, Ontario, won a medal for proficiency at Victoria College. Some weeks ago, Dr. Philip in a course of an address before the Medical Society of Niagara Falls, remarked that he had won the medal but the college was then too poor to afford to strike one and had never conferred it upon him.

Later it was learned that Victoria College provided a search of its records, and discovered that it was as Dr. Philip said. A medal is being struck, and will be presented shortly.

Curtwright's Advice

At any rate, no modern statement confronted with the difficulties of the farmers has had the hardihood to offer them the advice said to have been tendered on no notable occasion by Sir Richard Curtwright, who told a delegation of agriculturists that they should work harder and eat less.

The life of a skyscraper is apt to be about 30 years, not because the building is worn out by that time, but because it makes way for a newer structure.

Butter Export Resumes

Volume Of Exports Of Butter Overseas Is Increasing Rapidly

The current market report of the Dominion Dairy and Cold Storage Branch gives information of significant interest to farmers and dairy men in the volume of exports of butter overseas. Last year during the export period, May 1 to June 7, Canada exported a total of 937 packages of butter; this year (1931) for the same period the export total was 1,000 packages.

Exports for the week ending June 6, totalled 14,972 packages all but 351 of which went to the British markets at London, Liverpool, Bristol, Cardiff, and Manchester. Very recently production in Canada has settled down to an export market which may in the long run prove a real benefit to Canadian farmers.

The life of a skyscraper is apt to be about 30 years, not because the building is worn out by that time, but because it makes way for a newer structure.

London Clocks Puzzle Experts

Formerly Reliable They Have Developed Strange Eccentricities

What is the matter with all the clocks in London?

Clocks which for years have had perfect reputations for accuracy have suddenly developed strange eccentricities.

The experts are puzzled, and are inclined to blame the weather. "Some of the clocks we regulate in the city have been decidedly erratic during the past few weeks," said a representative of a famous city firm of watchmakers.

"Almost every customer I have has sent for me to regulate the household clocks during the past fortnight," he said.

A Richmond clock and watch repairer said that he could not remember such a busy spring during the 30 years he had been in business.

"Grandfather clocks and small watches seem to be the chief offenders."

Caragana Wind Breaks

Seeds and Seedlings To Be Distributed Free To Farmers

Seeds and seedlings of caragana will be distributed free to farmers in the west for use as windbreakers, it was announced by Hon. R. B. Weir, when shown that in many places the west the only remaining green crop is that protected by field shelter hedges.

Advertisements by the federal department for caragana seed to be delivered to experimental farms or for sale on the prairie. Fifty cents a pound is being paid.

The federal stations expect to produce 100,000 seedlings per acre and 80 acres will be available for 1933 and 1934 distribution.

This fall the five Saskatchewan institutional farms will put in 60 acres of Caragana seed and next year between 8,000,000 and 9,000,000 seedlings will be ready for distribution.

Ban On British Cattle

Foot and Mouth Disease Prohibits Shipments To Canada

As a consequence of outbreaks of foot and mouth disease among cattle in the British Isles, the Canadian department of agriculture has issued permits for the importation of livestock from the old country as from June 20, excepting only shipments now actually embargoed.

Other orders prohibit the importation into Canada of certain animals and second-hand bags for bagging, from all foot and mouth infected countries; and provide for the consumer and other restrictions restricting the importation of grain, milk feeds and food stuffs for livestock feeding from foot and mouth infected countries.

New Relief Scheme For B.C.

Municipalities Will Not Have To Maintain Transient Unemployed

Municipalities of British Columbia will be relieved entirely from the cost of maintaining transient unemployed workers in a completely new relief scheme adopted by the provincial government.

The province and the Dominion will divide evenly the total cost of maintaining all transients, as from and including June 19 last, Premier Tupper announced.

Where municipalities have to take care of unemployed who are not transients, but municipal residents, the Dominion government will pay a third of the cost, the province a third and the municipalities a third, the premier said.

Everything Up-To-Date

A storm-proof roof garden, lashing pictures in every room at the wave of a hand, pictures that practically put themselves, and a telephone-type-writer system that will make many guests feel that the place is haunted, are among the unique contrivances being installed in the new Waldorf-Astoria Hotel, nearing completion on Park Avenue, New York.

U.S. Puts Tail On Lottery

All Irish banks have agreed at the request of the United States post office, to return all money or counter-forts received in the future from sweepstakes subscribers in the United States. It was said that bank managers had been informed that unless they did this, letters addressed to them would be subject to delay and inspection.

Poultry Outlook

A new factor in the poultry outlook at the present time, as reported by the poultry division of the Dominion livestock branch, is the extent to which farmers in many parts of Canada are now buying and raising and selling old pullet chicks.

In Favor Of Two Languages

Dr. Saunders, Of Marquis Wheat Farm, Speaks At Author's Association Meeting

An atmosphere of outspoken criticism pervaded sessions of the Canadian Authors' Association meeting in Toronto.

William MacDonald, of Toronto, began by launching an attack on university professors, literary critics, and the Canadian public in general for their indifference to Canadian literature.

Dr. C. E. Saunders, famous for his Marquis wheat, rebuked both English and French-Canadian for their blindness to each other's merits.

All Canadians should speak both languages, he contended. He regarded Ottawa as a most tolerant city; Toronto was not a tolerant city, nor were certain cities in Quebec. He pleaded for a closer understanding between the two groups.

Mrs. Camille Roy, of Laval, university, speaking in French, outlined the work of French-Canadian literary criticism since 1900. There were now two schools of writers in Quebec, he said, the nationalistic and the Canadian.

The first confined its attention to French Canada, while the second was more translations from French into English, said Willson MacDonald. Mrs. Roy said writers were wedged in a vice between the mockery of the Canadian who worshipped European culture and the mockery of the English who despised all things Canadian.

Robert Choquette's supplemented Mrs. Roy's remarks by suggesting more translations from French into English, so that the work of French-Canadian writers would be accessible to all in the Dominion.

Prof. Lionel Stephenson, of Tempe, Arizona, launched the convention there was no prejudice against French-Canadian writers in the United States. On the contrary he pointed out, many of the most successful authors in that country were Canadian, though this fact was seldom recognized by Americans.

Robert Weir, president of the Winnipeg, urged young writers to guard their copyright, and Madame A. P. Benoit, of Montreal, lauded activities of the association as a stimulus to creative authorship.

Has Only Military Aerodrome

Paris, Home Of Aviation, Has No Commercial Air Port

Although it may come as a surprise to most people, it must be admitted that Paris, the home of aviation, has no commercial air port. Even Charles Lindbergh landed at Le Bourget in May, 1927, the house has taken it for granted that this aerodrome must be the modern and the most accessible of any landing stage. As a matter of fact, it is a military aerodrome owned by the state, six miles from Paris and is not very convenient for foreign visitors.

Although generally cluttered up with military machines, there is considerable freight and passenger traffic. At present the aerodrome is running at the rate of 200,000 parcels and 40,000 passengers a year. It is a completely new relief scheme adopted by the provincial government.

The province and the Dominion will divide evenly the total cost of maintaining all transients, as from and including June 19 last, Premier Tupper announced.

Where municipalities have to take care of unemployed who are not transients, but municipal residents, the Dominion government will pay a third of the cost, the province a third and the municipalities a third, the premier said.

Everything Up-To-Date
A storm-proof roof garden, lashing pictures in every room at the wave of a hand, pictures that practically put themselves, and a telephone-type-writer system that will make many guests feel that the place is haunted, are among the unique contrivances being installed in the new Waldorf-Astoria Hotel, nearing completion on Park Avenue, New York.

Millions Of Trees

The Dominion Forestry Department at Sutherland, Sask., this year distributed about three million young trees to Saskatchewan farmers, for use in planting windbreaks, shelter belts and other purposes.

A movement has been launched in Scotland for earlier church services so that automobile owners may enjoy longer Sunday trips.

It Composed the Most Beautiful

Part of my opera when I was held about."

Her many friends will be glad to learn that Mrs. McCleary who has been very ill for the past week, is very much improved.

Mrs. Percy Seale and son, Jimmy, of Etzcom, are visiting Mrs. Seale's parents, Mr and Mrs Karl Martin.

Miss Margaret Steddon, of Calgary, arrived in town on Wednesday to spend her vacation with her sister, Mrs. John Hullah.

Mrs. Jules Lavine received word Monday of the sudden death of her sister at Assiniboia, Sask. Mr and Mrs Lavine and Mrs. C. Fitzhery, another sister, left at once for the east.

Last Monday a road gang commenced operations grading the portion of the national highway which runs through town. The grade proceeds in a north-westly direction from the Premier Brick plant and crosses Third street two blocks north of the Redcliff hotel.

IMPORTANT NOTICE

DEAR CUSTOMER:-

Owing to the present financial difficulties it has become necessary to adopt the STRICTLY CASH SYSTEM which will mean NO CREDIT on and after Saturday, August 1st. This has been more or less forced upon me by the Wholesaler, who, in turn, has been forced by the Manufacturer.

This will mean a complete revision of prices, and you will be able to buy your Groceries in Redcliff and save money. The delivery rig will run as usual and we will continue to call for your order, which is an extra service costing you nothing.

All goods will be plainly marked on the shelves and Specials will be displayed in the window. Call and look them over and compare prices.

Thanking you all for your past patronage, and trusting to be favored with a continuance of same,

Yours truly

World's Grain Exhibition and Conference

Farmers Will Win \$210,750.00 in Prizes

The World's Grain Exhibition and Conference offers Canadian farmers an opportunity to share in cash prizes amounting to \$210,750.00. Contested in 50 competitive classes, open to the whole world, are 1,701 cash prizes. A few of the major awards follow:

\$2,500 a first prize for 50 pounds of wheat 30 pounds of oats.
\$1,500 for 40 pounds of barley; 50 pounds of rye.
\$1,000 for 10 ears of corn.
\$1,000 for 30 pounds of clover; 30 pounds of flax.

With this splendid opportunity before them, Canadian farmers should keep a watchful eye on their growing crops. They should mark for special care those areas that appear most promising.

It should be understood that all seed and crop samples, if they are not already selected, will have to be by July 1st in crop of this year. All exhibits must be received by the Exhibition authorities on or before March 1, 1932.

Of vital importance to the advancement of Canadian agriculture will be the winning of World Championships in 1932 by farmers of Canada. Their seed and grain exhibits must demonstrate to the world the quality of Canada's field crops.

Select the classes from the prize list most suited to the crop you grow; then select your samples from the best you have.

It is best to make your entry NOW. Your sample for exhibit must be in the hands of the Secretary at Regina on or before March 1, 1932.

Valuable information relative to the preparation of grain and seed for exhibit may be secured by writing to the Secretary of the Provincial Committee, World's Grain Exhibition and Conference, care Department of Agriculture, your own province.

Show what you grow and share what you know. On September 1, the Secretary, World's Grain Exhibition and Conference, Imperial Bank Building, Regina, will send you a rule book, rules and regulations, complete descriptive notes and all other information.
